

ZClockIn

ATTENDANCE CLOCK-IN APP

The mobile app that allows every employee to clock in and out immediately, securely and in an integrated manner

The ZClockIn Attendance Clock-in app allows all employees to clock in and out while on the go, speeding up the attendance control and recording processes for both workers and Human Resources

SMARTPHONE OR TABLET WORKS LIKE A VIRTUAL CLOCK-IN/OUT DEVICE

CLOCK-INS/OUTS WITH GEO-FENCE TECHNOLOGY

SAFETY AGAINST FRAUD AND PRIVACY OBSERVANCE

ENTRY OF CLOCK-IN/OUT REASONS

REAL TIME DATA IN THE TIME & ATTENDANCE SOFTWARE

ZClockin

ATTENDANCE CLOCK-IN APP

01 CLOCK-IN/OUT FOR EVERYONE

Smartphones or tablets become genuine virtual clocking in and out devices where you can also associate any reasons for absence or presence, making it ideal for personnel off site or without access to the clock-in/out totem. This way, workers who work in

several branches or on a building site can clock in or out with just a few short clicks and also associate supporting documents from those available.

02 GEOLOCATED CLOCKING IN AND OUT

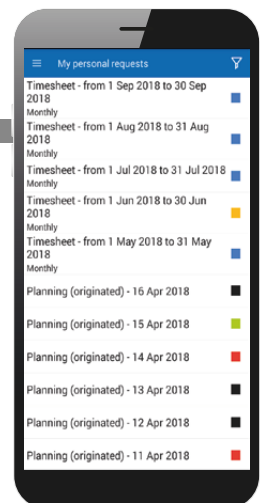

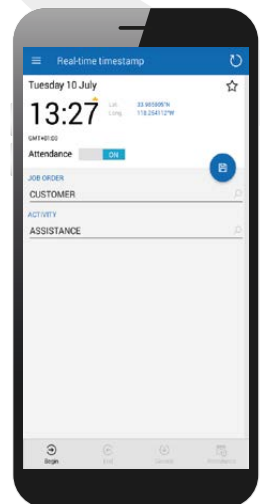

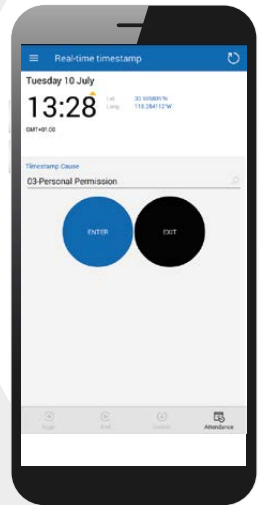

Each clocking in or out action is geolocated thanks to the geo-fence technology, which allows a perimeter for the validation of employees' presence to be set, while observing privacy. All that is required is to indicate the geographic coordinates, for example of the workplace, in order

to have an immediate check on clock-in validity: this means that the system only considers clock in or out actions that are made within the set perimeter, reducing the risk of fraud to zero and observing any workers' privacy protection laws.

03 INTEGRATION WITH THE TIME & ATTENDANCE SOFTWARE

The unique feature of the ZClockIn App lies in it being integrated with Zucchetti Time & Attendance Monitoring software, therefore all the data present and entered from a mobile device are synchronized in real time and available in the management software used in the company. The relevant managers and departments thus have all the information they require about

employee presence to hand, even for those workers who do not have another possibility of clocking in and out. And if the company uses other Time & Attendance Monitoring software, no problem! The ZClockIn app works with any other system to guarantee all the advantages of mobile apps, anywhere and at any time.

The complete line of Apps for all your business requirements!

A series of Business Apps to make managing every aspect of your business easier: shift planning, personnel clock-in/out, business trips and company carfleet management and much more, all thanks to the Infinity Zucchetti integrated platform for Human Capital Management.
